

Bjarke Ingels

Yes Is More

25 November

Cover detail of *Yes Is More: An Archicomic on Architectural Evolution*

Architecture evolves from the collision of political, economical, functional, logistical, cultural, structural, environmental and social interests, as well as interests yet unnamed and unforeseen. How to tell such a complex story in a simple way?

Bjarke Ingels started Bjarke Ingels Group in 2005. Through a series of award-winning design projects and buildings, Ingels has created an international reputation as a member of a new generation of architects that combine shrewd analysis, playful experimentation, social responsibility and humour. The lecture will be followed by book sales and a drinks reception in Open Room 1 adjacent to the Lecture Hall to launch the publication *Yes Is More: An Archicomic on Architectural Evolution*
